Supporting Successful Business

Testimonials

"I found the course really useful and the trainer was really approachable, knowledgeable and friendly."

"Many thanks for the draft audit report, which is to a very high standard. Thanks also to you and your team for the significant effort put into the audit itself."

"Your creative vision has been quite inspiring."

"All of our employees found the training very useful and informative and well executed."

"This work really supports our aim to improve the present depot safety culture and adds significant value."

"The assistance with the workload was carried out to a very good standard with which I am very grateful."

We keep your
business up to date
and your people
safe.

What Sectors do we cover?

Railway
Construction
Transport
Engineering
Environmental
Water Management
Property Risk

Benefits

- ✓ Our goal is to provide integrated sustainable solutions in every challenge your company may face.
- ✓ We have a wide range of knowledge in most industrial sectors.
- ✓ We can provide 24-hour service cover 365 days of the year, providing resource at short notice to inspect worksites on a risk based priority.
- ✓ We always ensure regular engagement with the client and subcontractors to coordinate site activities and evaluate work in progress.

Health and Safety

We can offer support for your management systems and operational safety cases. We provide our customers with risk analysis support, guidance and development services to help keep you up to date.

Environmental

We can provide Environmental Management Systems, Energy Management Systems and Environmental Risk Assessments. Our consultants are skilled in designing environmental processes to ISO standards that support your business.

Business Risk

We offer management systems support, departmental management system reviews and small business support. These services provide you with a specialist package to support and guide your team.

Project Management

We can manage any Site Inspection Projects for you and ensure all your sites are safe to operate. We provide detailed reports so you can see which sites are in need of review.

Auditing

We offer a wide range of audit and assessment services for Engineering, Safety, Quality and Environmental systems. We also provide internal audits, which will help to ensure your organisation's risk management, governance and internal control processes are operating effectively.

Inspections

We can provide fire safety inspections, site safety inspections, shared premises inspections and product inspections. Our team provide 24-hour service cover 365 days of the year, providing resource at short notice to inspect worksites on risk based priority.

Training

We offer courses that are accredited by the Chartered Institute of Environmental Health (CIEH), the Institute of Occupational Health and Safety (IOSH) and courses that are specifically tailored to the client's systems and requirements.
